Description of first aid measures
General information Instantly remove any clothing soiled by the product.
After inhalation Take affected persons into the open air and position comfortably

(Contd. on page 3) - CN EN -

Version number 2

Revision: 11.08.2015

Trade name: Hilti HIT-HY 110

Printing date 11.08.2015

- After skin contact Instantly rinse with water.
- · After eye contact Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
- · After swallowing Rinse out mouth and then drink plenty of water.
- · Information for doctor
- · Most important symptoms and effects, both acute and delayed Allergic reactions
- · Indication of any immediate medical attention and special treatment needed

No further relevant information available.

# **5** Firefighting measures

- · Extinguishing media
- · Suitable extinguishing agents Sand
- · For safety reasons unsuitable extinguishing agents Water with full jet.
- · Special hazards arising from the substance or mixture
- Can be released in case of fire
- Carbon monoxide (CO)
- Carbon dioxide (CO2) Nitrogen oxides (NOx)
- Under certain fire conditions, traces of other toxic gases cannot be excluded.
- · Advice for firefighters
- · Protective equipment: In the event of fire, wear self contained breathing apparatus

## 6 Accidental release measures

• **Personal precautions, protective equipment and emergency procedures** Wear protective equipment. Keep unprotected persons away. Wear protective clothing.

- Keep away from ignition sources
- Environmental precautions: Do not allow to enter the ground/soil.
- · Methods and material for containment and cleaning up:
- Clean the accident area carefully; suitable cleaners are: organic solvent
- · Reference to other sections
- See Section 7 for information on safe handling
- See Section 8 for information on personal protection equipment.
- See Section 13 for information on disposal.

## 7 Handling and storage

#### · Handling

- · Precautions for safe handling
- Check the expiry date: see imprint on manifold (month/year). Do not use expired mortar!
- The usual precautionary measures should be adhered to general rules for handling chemicals.
- Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage
- Requirements to be met by storerooms and containers: Keep in a cool, dry and dark place; 5 °C to 25 °C.
- · Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions: Protect from heat and direct sunlight.
- · Maximum storage temperature: 25 °C
- · Storage class

As per VCI (1991) storage classification concept.

11

· Specific end use(s) Adhesive mortar for anchor fastenings in concrete

## 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

· Components with limit values that require monitoring at the workplace:

The product has a pasty consistency. Exposure limit values for respirable dusts ar not relevant for this product.

# 10 Stability and reactivity

- · Reactivity
- · Chemical stability
- **Thermal decomposition / conditions to be avoided:** To avoid thermal decomposition do not overheat.
- No decomposition if used and stored according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known
- Conditions to avoid No further relevant information available.
- Incompatible materials: No further relevant information available.
- Hazardous decomposition products: No dangerous decomposition products known

# **11** Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- $\cdot$  on the skin: No irritant effect.
- on the eye: No irritant effect.
- · Sensitisation: Sensitization possible by skin contact.
- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction) None

# **12 Ecological information**

- · Toxicity
- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- $\cdot$  Mobility in soil No further relevant information available.
- · Additional ecological information:
- According to recipe contains the following heavy metals and compounds according to EC guideline NO. 76/464 EC: None

(Contd. on page 6)

Version number 2

Revision: 11.08.2015

Trade name: Hilti HIT-HY 110

- $\cdot$  General notes: The product does not contain organically bounded halogens (AOX-free).
- $\cdot$  Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

# **13 Disposal considerations**

· Waste treatment methods

· Recommendation

For disposal, local regulations issued by the authorities must be observed.

After curing, the product can be disposed of with household waste.

Full or only partially emptied cartridges must be disposed of as special waste in accordance with official regulations.

· European waste catalogue	
----------------------------	--

08 04 09*	waste adhesives and sealants containing organic solvents or other dangerous substances
20 01 27*	paint, inks, adhesives and resins containing dangerous substances

## · Uncleaned packagings:

· Recommendation:

Dispose of packaging according to regulations on the disposal of packagings.

Empty packs: May be disposed via the local Green Dot collecting system or EAK waste material code 150102 (plastic packaging materials)

Transport information
